

Dear Valued Customer,

We are excited to announce that we have been acquired by Dorsett Controls. They are an industry leader that provides intelligent SCADA systems for water, wastewater, stormwater, energy management, air quality, security, and intelligent building control.

Going forward, our operations will align under the Dorsett Controls brand as our online presence will transition to [dorsettcontrols.com](http://dorsettcontrols.com). This move signals our intention to broaden our business and offerings so we can continue to grow together by providing our customers access to best-in-class solutions and products.

### **What does this mean for you?**

On a day-to-day basis, it's business as usual only now we have new resources and capabilities to continue delivering value for you. All existing contracts and purchase orders with Sunapsys will remain in place, and your contacts at our company have not changed. We will just be working under the Dorsett Controls name going forward.

### **What does this mean for us?**

Our entire staff is now a part of the Dorsett Controls family! Our office will remain in Vinton and Dorsett Controls is headquartered in nearby Yadkinville, North Carolina. We will continue to lead the same dedicated and talented team under Dorsett Controls.

### **Thank you!**

I want to take this opportunity to thank each and every one of you for putting your trust in us over the past 28 years and bringing us to where we are today. Everyone at Sunapsys and Dorsett Controls is committed to make this partnership as beneficial to you, our customers, during this exciting time.

If you have questions about the acquisition, please contact us.

Thank you for your continued support.

Sincerely,

Ronald E. Davis  
President  
Sunapsys, Inc
